

*Dear wine lover, all the wines included in this list are chosen from the producers we personally select considering at the same time the high quality of their products, the respect of the territories in which they grow their precious grapes, the outstanding taste that only true wines can provide.*

*The best wine doesn't exist: each wine needs its occasion of use to match with. It could be a specific mood, a tasty food pairing or a "life-moment" to celebrate. Whichever your demand is, we are glad 'n ready to help you to select the wine that fits you and your friends, making your experience delightful and always different*

*Good to know:*

*Italy and France are the biggest producers of wine in the world. Italy is leading the production in the last years.*

*Are produced amazing wines in more than 35 different Countries worldwide.*

There are more than 6000 different grape varieties in the world but only few dozens of them are directly responsible of the final taste in the glass (the aromatic varieties) for all the others the aromatic complexity comes mainly by the winemaking and ageing processes

The cost of a wine depends on many factors that are mainly but not only, the dimension of the winery (economy of scale like all the other industries), terroir (orography, weather, man's knowledge), product idea (yield, ageing process, technological investments, R&D, marketing). Not necessarily the wine that cost more is the one you will like the most.

***How to read our wine description:***

**Wine Producer**

Commercial name, Denomination/Appellation Vintage

*Grape Variety*

Country of origin, Wine region

Example:

**Merotto**

La Primavera di Barbara, Valdobbiadene Prosecco Superiore DOCG Brut 2016

*Glera*

Italy, Veneto
